

Marcie Bayne

Occupation: Small business owner

Age: 61

My education and qualifications are:

I will put public safety first. I serve as Vice-Chair of the Measure A Committee fighting to make sure your tax dollars go to putting more cops on the street. We must be able to hire and retain police officers to keep our city safe.

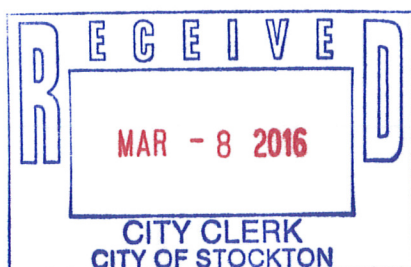

I serve on the Charter Review Commission working to break the cycle of city government dysfunction. I believe we can have a city that works. As a business owner, I know that business is the engine that drives our local economy. I will work to streamline government services to help business thrive.

I will insist on independent audit controls of the city's finances to keep us on track to recovery. We cannot be a bankrupt city again. I will make sure we do not make the mistakes of the past.

Literacy is integrally linked to crime and poverty. Our city needs to support libraries that tackle improving literacy in both children and adults. I will work to find sustainable funding for literacy programs.

My degree is in business, with an emphasis on public policy. I am dedicated to turning around Stockton.

Vote Marcie Bayne in District 4!
